

ATHENA CYBER

When specialist expertise meets modern cyber protection

Rokstone Athena Cyber helps businesses anticipate cyber threats, respond confidently to incidents and recover faster when disruption occurs.

Cyber threats are now one of the biggest risks facing companies, requiring more than financial protection alone. Rokstone Athena Cyber combines specialist cyber, technology and crime cover with rapid incident response, giving businesses access to the expertise they need when it matters most.

BUILT ON FOUR PILLARS

Named after Athena, the Greek goddess of wisdom and strategy, our approach is built on four core principles:

- › **Strategy** – Confident decisions through specialist underwriting and expert incident response.
- › **Wisdom** – Data, insight and expertise to identify threats early.
- › **Protection** – Comprehensive cyber, technology and crime cover.
- › **Resilience** – Helping businesses minimise disruption and recover faster.

From instant digital quotations for SMEs to bespoke multinational programmes, Rokstone Athena Cyber delivers flexible solutions backed by A rated Lloyd's capacity. Combined with technology-enabled risk management tools, real-time insights and direct access to experienced underwriters, we provide brokers and clients with expertise, responsiveness and the confidence to handle the cyber threats facing organisations right now.
